IMPORTANT NEWS!

On Thursday, December 5, 2013, at 5:00 p.m., the City of Hillsboro Building Department will begin transitioning to a new permitting and inspection computer system. This new technology will allow us to better serve you, but will require us to briefly interrupt our "IVR" inspection scheduling tool as we move our database over to the new system.

The City of Hillsboro's IVR inspection request system will not be operational from December 5th at 5:00 p.m. until December 9th at noon. The Building Department will continue to accept inspection requests during this time as follows:

- call 503-681-6144 (voicemail available after hours)
- fax 503-681-6469, or
- email building_dept@hillsboro-oregon.gov

The IVR inspection scheduling tool will be operational again at noon on Monday, December 9th, but please be aware that our **IVR numbers will change** to accommodate the new system. As we all adjust to the new system, please consult this guide when calling in inspections. An electronic copy of this guide is available at the Building Department website. Scan the QR Code below for a direct link to the Inspections webpage.

IVR

Inspection Code Conversion Guide
